## WORLD POST DAY

World Post Day was celebrated enthusiastically by students from Pre-Primary to Grade 8, highlighting the importance of the postal system in connecting people across distances. The children engaged in creative activities such as postcard making and letter writing, which helped them appreciate the value of traditional communication. Interactive sessions and educational discussions about the history and role of postal services made the celebration both fun and enlightening for young learners.

## DIWALI CELEBRATION

The Pre-Primary Celebration was a delightful occasion filled with joy and learning, specially designed to engage the youngest learners. The children participated in colourful activities like song and dance, craft making and interactive stories that fostered creativity and social skills. This celebration created a warm and inclusive environment where little ones enjoyed expressing themselves and building early friendships.

# A SPACE ADVENTURE

The Pre-primary "A Space Adventure" session took little learners on an exciting journey through the cosmos, sparking curiosity and wonder about outer space. The children engaged in hands-on activities like building rocket ships, creating sensory moon sand, and exploring space-themed crafts, which helped develop their fine motor skills and creativity. This immersive experience combined fun and learning, inspiring young minds to explore and imagine the vast universe beyond Earth.

## RISING STAR – THE TALENT SHOW

The "Rising Star – The Talent Show" was a delightful event where students from all grades showcased their unique skills and talents. From singing and dancing to magic tricks and creative storytelling, the show celebrated the diverse abilities of our young performers. The enthusiastic participation and vibrant performances made it an inspiring and memorable experience for everyone involved.
